EXECUTIVE OFFICE OF THE PRESIDENT  
OFFICE OF MANAGEMENT AND BUDGET  
WASHINGTON, D.C. 20503

THE DIRECTOR

The President

The White House

Submitted for your consideration is a request to make available \$900.0 million in previously appropriated contingent emergency funds for the Department of Defense (DOD).

P.L. 106-31, the 1999 Emergency Supplemental Appropriations Act, provided \$1.1 billion in emergency funding for the Overseas Contingency Operations Transfer Fund, contingent upon the President submitting a budget request to the Congress and designating the entire amount requested as an emergency requirement. The funds were provided for items that "meet a critical readiness or sustainability need." P.L. 106-31 also requires the budget request to include an identification of the items that meet these needs. None of these funds have yet been designated as an emergency requirement and made available. An additional \$3.9 billion in emergency funding was available to the Overseas Contingency Operations Transfer Fund immediately upon enactment of P.L. 106-31.

Of the \$900.0 million now requested to be made available, \$700.0 million would be used to replenish munitions expended during the air campaign against Yugoslavia or increase the inventories of critical munitions to protect readiness for future operations. An additional \$200.0 million would be used to procure a number of equipment items that the Joint Chiefs of Staff found to be critical during the air campaign and that are necessary to sustain future operations. These readiness funds would also be used to restore resources to programs the services used as reprogramming sources in order to accelerate critical equipment purchases during the campaign.

In accordance with provisions of P.L. 106-31, the funds will be transferred to the DOD accounts listed on the enclosure. I recommend that you designate the entire \$900.0 million as an emergency requirement in accordance with section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended. No further congressional action will be required.

I have carefully reviewed this proposal and am satisfied that it is necessary at this time. Therefore, I join the Secretary of Defense in recommending that you make the requested funds available by signing the enclosed letter to the Speaker of the House of Representatives.

Sincerely,
